

What is Price Gouging?

Florida law bans an unconscionable increase in the price of essential commodities during a declared State of Emergency.

What is an Essential Commodity?

Essential commodities include lumber, ice, water, generators, gas, shelter, and necessary remediation services such as tree removal or roofing repair. The price gouging statute does not apply to non-essential goods like alcohol or cigarettes.

What are the Penalties?

- For price gouging, the civil penalties are \$1,000 per violation and up to \$25,000 for multiple violations committed in a single 24-hour period in addition to any other violations of Florida law that may apply.
- Violators can also be charged criminally with a second-degree misdemeanor for the sale of goods and services to the public without possession of an occupational license.
